

§ 228.55

procedures and reclamation measures, unless the requirement is waived by the authorized officer.

§ 228.55 Cancellation or suspension.

The authorized officer may cancel or suspend a contract, permit, or prospecting permit if the purchaser or permittee fails to comply with its terms and conditions. If the noncompliance is unnecessarily or unreasonably causing injury, loss, or damage to surface resources, the authorized officer may cancel or suspend the contract, permit, or prospecting permit immediately. In cases where noncompliance is of a less serious nature, the authorized officer may cancel or suspend a contract, permit, or prospecting permit if such noncompliance continues for 30 days after service of written notice by the authorized officer. If the noncompliance is not corrected, the authorized officer may attach the bond to ensure compliance with the provisions of the contract, permit, or prospecting permit.

§ 228.56 Operating plans.

Any surface-disturbing operation under a contract, permit, or prospecting permit is subject to prior approval by the authorized officer of an operating plan and to reasonable conditions as may be required to ensure proper protection of the environment and improvements, including timely reclamation of disturbed lands. Significant changes to operations require prior approval of an amended operating plan. The operating plan must include, as a minimum, a map and explanation of the nature of the access, anticipated activity, surface disturbance, and intended reclamation including removal or retention of structures and facilities. Operating plans must be submitted by the purchaser, permittee, or prospecting permittee, except as noted in § 228.64(b).

TYPES AND METHODS OF DISPOSAL

§ 228.57 Types of disposal.

Except as provided in § 228.41(b), disposal of mineral materials may be made by:

(a) *Competitive sale* to the highest qualified bidder after formal adver-

36 CFR Ch. II (7–1–13 Edition)

tising and other appropriate public notice;

(b) *Sale by negotiated contract.* (1) For removal of materials to be used in connection with a public works improvement program on behalf of a Federal, State, or local government agency if the public exigency will not permit delays incident to advertising, or

(2) For the removal of mineral materials for which it is impracticable to obtain competition;

(c) *Preference right negotiated sale* to the holder of a Forest Service-issued prospecting permit under which a suitable mineral material deposit has been demonstrated on acquired National Forest lands;

(d) *Free use* when a permit is issued to any nonprofit association, corporation, individual, or others listed in § 228.62(d), for other than commercial purposes, resale, or barter, or to any Federal, State, county, local unit, subdivision, municipality, or county road district for use in public projects; or

(e) *Forest Service force account or by contract* where the material is to be used to carry out various Forest Service programs involving construction and maintenance of physical improvements.

§ 228.58 Competitive sales.

(a) *Invitation for bid.* Sales must be conducted as described below after inviting competitive bids through publication and posting. The authorized officer may not offer a competitive sale unless there is a right-of-way or other access to the sale area which is available to anyone qualified to bid.

(b) *Advertising*—(1) *Sales over 25,000 cubic yards.* Mineral material sales offered by competitive bidding and which exceed 25,000 cubic yards must be advertised on the same day once a week for two consecutive weeks in a newspaper of general circulation in the area where the material is located, and in a trade or industrial newspaper when considered appropriate. Notice of the sale must be posted in a conspicuous place in the office where bids are to be submitted. In addition, the authorized officer may send the advertisement directly to known interested persons. Bids may be received but not evaluated

before the end of the advertising period, which may be extended at the discretion of the authorized officer.

(2) *Content of advertising.* The advertisement of sale must specify the location by legal description of the tract or tracts or by any other means identify the location of the mineral material deposit being offered, the kind of material, estimated quantities, the unit of measurement, appraised price (which sets the minimum acceptable bid), time and place for receiving and opening of bids, minimum deposit required, major special constraints due to environmental considerations, available access, maintenance required over haul routes, traffic controls, required use permits, required qualifications of bidders, the method of bidding, bonding requirement, notice of the right to reject any or all bids, the office where a copy of the contract and additional information may be obtained, and additional information the authorized officer deems necessary.

(3) *Advertising smaller sales.* Advertisement of mineral materials amounting to 25,000 cubic yards in volume (or weight equivalent) or less must be published and/or posted. The methods of advertisement are at the discretion of the authorized officer.

(c) *Conduct of sales.* (1) Bidding at competitive sales may be conducted by the submission of written sealed bids, oral bids, or a combination of both as directed by the authorized officer. In the event of a tie in high sealed bids, the highest bidder will be determined by oral auction among those tied bidders; when no oral bid is higher than the sealed bids, the selected bidder will be determined by lot, the purchase price being the amount of the tied bid. For all oral auctions, including those used to break sealed-bid ties, the high bidder must confirm the bid in writing immediately upon being declared the high bidder. The authorized officer must mail notification of the bidding results to all bidders within 10 days.

(2) The authorized officer may require bidders to furnish evidence of qualification at the time of award or, if such evidence has already been furnished and is still valid, make appropriate reference to the record containing it.

(3) When it is in the interest of the United States to do so, the authorized officer may reject any or all bids.

(d) *Bid deposits and award of contract.* Sealed bids must be accompanied by a deposit. For mineral materials offered at oral auction, bidders must make the deposit before opening of the bidding.

(1) Bid deposits must be equal to 10 percent of the appraised value but not less than \$100.00.

(2) Bid deposits must be in the form of cash, money order, bank drafts, cashier's or certified checks made payable to the Forest Service, or bonds acceptable to the Forest Service (§ 228.51(b)).

(3) Upon conclusion of the bidding, the authorized officer will return the deposits of all unsuccessful bidders. The successful bidder's deposit will be applied toward the purchase price. If the contract is not awarded to the high bidder due to an inability to perform the obligations of the contract, the deposit, less expenses and damages incurred by the United States, may be returned. The return of a deposit does not prejudice any other rights or remedies of the United States. The contract may be offered and awarded to the next successive qualified high bidder, or, at the discretion of the authorized officer, the sale may be either re-advertised or negotiated if it is determined that a competitive sale is impracticable.

(4) Within 30 days after receipt of the contract, the successful bidder must sign and return the contract, together with any required bond, unless the authorized officer has granted an extension for an additional 30 days. The bidder must apply for the extension in writing within the first 30-day period. If the successful bidder fails to return the contract within the first 30-day period or within an approved extension, the bid deposit, less the costs of re-advertising and damages, may be returned without prejudice to any other rights or remedies of the United States.

(5) All sales must be processed on Forest Service-approved contract forms. The authorized officer may add provisions to the contract to cover conditions peculiar to the sale area. Such additional provisions must be made

§ 228.59

available for inspection by prospective bidders during the advertising period.

§ 228.59 Negotiated or noncompetitive sales.

(a) *Volume limitations.* When it is determined by the authorized officer to be in the public interest and when it is impracticable to obtain competition, mineral materials not exceeding 100,000 cubic yards in volume (or weight equivalent) may be sold in any one sale at not less than the appraised value, without advertising or calling for bids, except as provided in paragraphs (b) and (c) of this section. The authorized officer may not approve noncompetitive sales that exceed the total of 200,000 cubic yards (or weight equivalent) made in any one State for the benefit of any applicant in any period of 12 consecutive months.

(b) *Government programs.* In connection with a public works improvement project on behalf of a Federal, State, or local governmental agency, the authorized officer may sell to an applicant, at not less than the appraised value, without advertising or calling for bids, a volume of mineral materials not to exceed 200,000 cubic yards (or weight equivalent) when the public exigency will not permit delays incident to advertising (30 U.S.C. 602).

(c) *Appropriation for highway purposes.* For interstate and/or Federal aid highways, the Secretary of Transportation may appropriate any volume in accordance with 23 U.S.C. 107 and 317.

(d) *Use in development of Federal mineral leases.* When it is determined to be impracticable to obtain competition and the mineral materials are to be used in connection with the development of mineral leases issued by the United States (§ 228.44), the authorized officer may sell to a leaseholder a volume of mineral material not to exceed 200,000 cubic yards (or weight equivalent) in one State in any period of 12 consecutive months. No charge will be made for materials which must be moved in the process of extracting the mineral under lease, as long as the materials remain stockpiled within the boundaries of the leased area.

(e) *Exceptions.* (1) The Chief of the Forest Service may authorize the noncompetitive sale of mineral materials

36 CFR Ch. II (7–1–13 Edition)

in excess of the volume limitations in paragraphs (a), (b), and (d) of this section when necessary to:

(i) Respond to an emergency affecting public health, safety or property;

(ii) Prevent the curtailment of operations conducted under the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 *et seq.*) which generate large volumes of mineral materials as a by-product; or

(iii) Respond to a critical public need for the prompt development of a mineral lease issued by the United States or a mining claim located under the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 *et seq.*).

(2) Any noncompetitive sale of mineral materials in excess of the volume limitations in paragraphs (a), (b), and (d) shall be subject to such restrictions as the Chief of the Forest Service determines to be in the public interest.

(3) Nothing in this paragraph shall otherwise alter the requirements of paragraphs (a) through (d) of this section.

[49 FR 29784, July 24, 1984, as amended at 52 FR 10565, Apr. 2, 1987; 53 FR 43691, Oct. 28, 1988]

§ 228.60 Prospecting permits.

(a) *Right conferred.* On acquired National Forest lands, prospecting permits may be issued which grant the permittee the exclusive right to explore for and to demonstrate the existence of a suitable mineral material deposit when existing information is insufficient. After the demonstration of a suitable deposit and confirmation of this by the authorized officer, the permittee will have a preference right to apply for a negotiated sale.

(b) *Limitations.* Mineral material may be removed from lands under a prospecting permit only to the extent necessary for testing and analysis or for the demonstration of the existence of a suitable deposit.

(c) *Environmental analysis.* Prospecting permits will be issued only after submission by applicant and approval by the authorized officer of a detailed operating plan. The authorized officer may require a bond in accordance with § 228.51. The authorized officer must ensure compliance with the
